April 5, 1934

Dear Flossie,

With pleasure I am enclosing your fifteen percent dividend from the City Nat'l. Bk. (\$11.60) which I hope you will find some use for. Have been afraid that you would think that I was holding out on you, but she gave sufficient explanation for the delay, which would not interest you nor me.

Well we miss your smiling face Easter morning especially. I was wondering now and then through the day if you would not have liked to have been home and seen the new bonnetts. Was not much indication of hard times, but what want man do and sacrifice in order to have his daughter or partner to appeal to her opposite sex and aggravate her own? Irene was new from pantaloons out, with the exception of hat. She could not find anything to fit so she had to ware the old one. I send her to Taylor yesterday to get a hat but she came home without one again. Did not have much trouble persuading her to go to Taylor, but she was more interested in Thomas then her hat I am sure. Now that you know all of that I think it is not asking too much that you send us a picyure of you in you Easter attire. Should you think it too much trouble to dress all over again for the picture, I am sure a side view of you in the same pose as you appeared in Guthrie Okla. would be material for any man's hope chest. Yeah?

The Swanson sisters gave a bridge party last nite, which was enjoyed by the whole bunch of their age more or less. It started raining after we had all gotten there and we could not leave till after eleven O'clock. Victor Lindell said it seemed as it was not going to quit so we had all better go home and get our pajamas and stay all night. Even Edwena got rained in, so she is down at the house today.

We were out at Edd's Monday Nite and had icecream. Bonnie has hooping cough. I have predicted that for several weeks, but they would not believe me, now they know that she has it, though it is not bad and she is old enough now to ~~###~~ kind of watch herself. She should soon be over it as she has been coughing so long.

Didnt get to see enough of you when you were home I suppose so we have had kind of a roaming fever the last few weeks. Would like to drive down to see you in a few weeks, if it does not break into your plans. If it will be O.K. with you you might name a Sunday, also whom you would prefer we would ask to go with us. We will comply with your request so far as we can. And if you want Bonnie her Cough is not worse then she can go anywhere.

Pardon my imposition, but I have not changed any.

Yours truly

Thos. E. Lundblad
